Make garden more fun

About us

ZHEJIANG DIBIBI TECHNOLOGIES CO., LTD.. is a professional supplier of outdoor garden products. Founded in 2011, we can produce dozens of products in many series, such as garden greenhouses, metal garden sheds, plastic storage sheds, etc.

The company has strong R&D strength with more than 150 invention patents, over 20 software copyrights, 10 software product certifications, and has won many international design awards. We have two production bases, with a total production area of 100000m². The new generation of intelligent production line can achieve the production capacity of more than 100000 sets of greenhouses and storage sheds annually, which can meet the procurement needs of large global brands.
